

# RSB-6 SOUND BAR FIRMWARE UPDATE INSTRUCTIONS **Klipsch** REFERENCE

1

Copy the ".mdu" update file to an empty USB flash drive.

2

Unplug the power cord from the sound bar.

3

Insert the USB drive into the USB port on the rear of the sound bar.

4

Plug the power cord into the sound bar.

5

Press the source key to begin the firmware update.

6

The Dolby Digital LED will light up when the firmware update has started.

# RSB-6 SOUND BAR FIRMWARE UPDATE INSTRUCTIONS **Klipsch** REFERENCE

- 7** As the update installs - the Virtual Surround Mode LED will light up, then the Dialog LED, then the Night Mode LED. The update will be complete once all 4 LED's are lit.

- 8** Unplug the power cord from the sound bar.

- 9** Remove the USB flash drive from the sound bar.

- 10** Plug the power cord into the sound bar. Your sound bar firmware is now up to date and your sound bar should operate normally.
